To Our Patrons

We take pleasure in presenting herewith our 1927 price list of Dahlias and Glads and wish to express our appreciation for the liberal patronage given us the past season.

We desire to build our business with the trade of **satisfied customers only**, and every bulb sent out is guaranteed true to name, in growing condition and free from insects and disease. Every dahlia tuber will have one or more visible live "eyes" or sprouts. None of our stock is propagated from green plants and cuttings. Orders will be filled from strong, plump, field-grown stock, and no dried-up, inferior goods will be sold to anyone. Full directions on culture will be enclosed with each order, if requested.

No substitution unless permission is given.

Varieties offered are subject to previous sale and will be sent postpaid in U. S. and Canada on all orders of \$2.00 and over. No orders accepted for less than \$1.00. Shipments of Glads will be made about April 1st to May 1st. Dahlias from April 15th to May 1st. Order early, as many good varieties are frequently sold out long before planting time. Terms are cash with order or before delivery, but a deposit of 20 per cent will hold early orders for future delivery. C. O. D. orders must be accompanied by at least 25 per cent cash. No orders held after May 1st unless fully paid for.

GUARANTEE.—We guarantee our stock to be true to name and to arrive in growing condition, and will replace any that may prove otherwise. If a shipment does not arrive in satisfactory condition, notify us at once. It must be mutually understood, however, that beyond this we will not be held responsible, as success with bulbs depends largely upon treatment received after arrival at destination, weather and other conditions. However, if you have any complaint to make about our bulbs, tell us "first."

DAHLIAS

Types are indicated as follows: (D) Decorative; (C) Cactus; (HC) Hybrid Cactus; (P) Peony-flowered; (S) Show or ball type. Pompons are listed separately.

	Each
Alta Wheeler (D)—Shorey's famous prize winner. Scarlet shading to orange. Monster blooms on three-foot stems. Best Northwest introduction	5.00

Glow—Old rose.	Zoe—Yellow often tipped white;
Guiding Star—White.	

"If in Doubt What to Plant---Try Some Glads"

GLADIOLUS

On account of its long keeping qualities the Gladiolus is one of the very best flowers for cutting. If cut in the morning when the first buds open and given fresh water daily they will last a week or more and every bud will open to the top.

Those marked (K) are famous Kunderd originations, while (D) indicates those from Diener. Varieties marked (*) are Primulinus type.

Prices quoted are for bulbs about 1½ inches and up in diameter.

	Each	Doz.
Ah (K)—Pale apricot pink	20c	\$2.00
Anna Eberius (D)—Velvety purple	15c	1.50
